FRANKIS GROUP OY

ANNUAL REPORT FOR PERIOD OF 1 Jan 2012 – 31 Jan 2013

Frankis Group Oy acts as the active parent/administrator company of the Group

Corporate relations

Frankis Group Oy (formerly Senhold 1 Oy) owned 100% of Frankis Finland Oy during the accounting period. Frankis Finland Oy likewise owned 100% of Kotipizza Oyj and also Helsinki Foodstock Oy. Furthermore the Group includes the wholly-owned Francout Oy, Domipizza Oy and Senhold 2 Oy. No change in ownership of the Group has taken place during the accounting period.

Operations of subsidiaries

Kotipizza Oyj operates a pizza franchise in Finland.
Helsinki Foodstock Oy is a wholesaler whose customers include the Kotipizza chain (inter alia).
Francout Oy is an accounting office that offers bookkeeping and other accounting services for Kotipizza chain franchisees, group companies and other customers.
Domipizza Oy operates in the fast food industry; its product is a pizza slice.
Subsidiaries have compiled their own annual reports.

The following are members of Frankis Group Oy's board of directors

Johan Wentzel	Chairman
Olli Väättäinen	Regular member
Rabbe Grönblom	Regular member
Kim Hanslin	Regular member starting 1 Nov 2012
Janne Wartiovaara	Deputy member

Kim Hanslin has been Managing Director since 31 Oct 2012, and Tommi Tervanen beginning on 1 Nov 2012

Auditor KHT Audit firm Ernst & Young Oy
Principal auditor KHT (KHT = Authorised Public Accountant) Mikko Järventausta

Board's proposal regarding the use of earnings

The Board recommends that no dividend be paid, but that the loss of the period be recognized in equity.

No substantial changes have occurred in the company's financial position after the conclusion of the accounting period.

Inquiries and possibilities shall be continued in the current accounting period to clarify the new group structure that emerged in 2011 in the company reorganization.

ACCOUNTING PRINCIPLES APPLIED IN CONSOLIDATED FINANCIAL STATEMENTS

The consolidated financial statements contain Frankis Group Oy and all of the subsidiaries in which the parent company has directly or indirectly over 50 percent of the number of votes or otherwise controlling interest in the company.

Companies acquired during the accounting period are included in the consolidated financial statement starting from the moment of acquisition. The group was formed on 1 Sept 2011. This is the company's second consolidated financial statement.

GROUP STRUCTURE:

Frankis Group Oy belongs to a group that is comprised of funds that are managed by Sentica Partners Oy. Liabilities related to these are shown in the group 'liabilities to companies in the same group'.

The Frankis Group Group is comprised of parent company Frankis Group Oy and subsidiaries Frankis Finland Oy (100 % ownership), Francount Oy (100% ownership), Domipizza Oy (100% ownership) and Senhold 2 Oy (100% ownership).

Frankis Finland Oy owns subsidiaries Kotipizza Oyj (100% ownership) and Helsinki Foodstock Oy (100% ownership). Frankis Finland Oy compiles sub-group financial statements whose numbers are combined into the main group.

Senhold 2 Oy owns subsidiary Kotipizza SPb LLC in Russia. Senhold 2 Oy does not compile separate sub-group financial statements; instead Kotipizza SPb LLC's numbers are combined directly into the main group.

The financial statements are available: Satamaterminaali Vaskiluoto, 65170 Vaasa.

ACCOUNTING PRINCIPLES

The cost method is applied in the compilation of the consolidated financial statements. The difference between the subsidiary's acquisition cost and the equity corresponding to the acquired holding is shown as group goodwill. Goodwill of the group is amortised over 20 years. The financial statements of a foreign subsidiary have been modified, if necessary, to correspond with the accounting principles applied in the compiling of the consolidated financial statements.

The group's internal transactions, internal ownership and mutual receivables and liabilities have been eliminated.

The accounting period of the parent company differs from that of the subsidiaries by one month. The parent company's own period started 01 Jan 2012 (13 months) and the periods of all of the subsidiaries began 1 Feb 2012 (12 months). The Accounting Board (KILA) has granted the company an exemption from similarity for years 2011-2013.

Group goodwill has been amortised in the consolidated financial statements according to the accounting periods of subsidiaries (12 months).

The one-month difference in the length of period causes elimination differences in the group which weakens the profit of the group. Internal transactions of the parent company in January in relation to subsidiaries have been eliminated unilaterally from the income and balance sheet of the parent company.

Fixed assets

Fixed assets are presented as the difference between acquisition cost and accumulated depreciation.

The cost of fixed assets is depreciated according to a plan drawn up in advance and the cost includes only the cost of products with remaining economic life.

Depreciation/amortisation periods:

Intellectual property rights	5-10 years
Long-term expenditures	4-10 years
Buildings and structures	5-10 years
Machinery and equipment	3-5 years

Valuation of inventory

Materials and supplies and other inventory are valued at acquisition cost, and unfinished products are valued according to direct construction costs. Completed products and goods are valued at acquisition cost for new ones, and according to lowest fair market value for used ones.

Pension costs

Employee pension plans are managed by an external pension insurance company.

Protection changes in interest rate

The parent company of the group has made an interest rate protection agreement against changes in the interest rate of a long-term loan. The impact of the agreement on profit is taken into account in financing expenses.

A mandatory provision has been made in the financial statements for the speculative part of the agreement when the market value is negative on the closing date.

Foreign currency items

On the balance sheet, receivables and liabilities denominated in foreign currencies have been converted into Finnish currency at the exchange rate on the closing date; on the income statement the medium rate of exchange for the period is applied. Translation differences arising from using different currencies are recorded in shareholders' equity of the group.

Deferred income taxes

Deferred tax liabilities or assets are calculated at the temporary difference between taxation and financial statements using the subsequent years' tax rate adopted at the closing date. A deferred tax asset that is based on adopted losses is recorded, in accordance with the prudence principle, only for losses that can be utilised in the next few years with a high probability.

Deferred tax liabilities and assets of the Group are netted into own single item on the balance sheet.

Valuation of receivables

Short- and long-term receivables are valued at fair market value. The part of a loan or other such receivables whose accumulation involves uncertainty is recorded in impairments of investments in fixed assets. Mutual receivables and liabilities and impairments have been eliminated from subsidiaries that are combined in the consolidated financial statements.

Changes in accounting policies

The following changes in accounting policies have been made in group subsidiaries during the period:

In the current period, only the portion of uncertain receivables that exceeds the guarantee is recorded in the loan loss provision. In previous periods, uncertain receivables have been recorded in full in the loan loss provision.

In the current period, guarantees received by the company have been transferred from short-term liabilities into long-term liabilities. The comparative balance sheet has not been adjusted. In the latest financial statement there were 1,398,292.29 euros of these kinds of guarantees.

In the current period, only pledged deposits of the security deposits received by the company were left in other receivables and the other deposits were transferred to the cash and cash equivalents group. In previous periods all security deposits were shown in other receivables. The comparative balance sheet has not been adjusted. In the latest financial statements there were 669 932,43 euros of these kinds of security deposits.

Comparability of financial statements

The figures of the periods are not comparable to each other because the accounting periods are different in length.

Protection against changes in interest rate

The Group's parent company has entered an interest rate swap agreement for protection against the interest rate risk of a loan on the balance sheet. The properties of the hedging instrument and hedged item are essentially equivalent to each other; therefore the company considers the protection effective. The market value of the interest rate swap agreement on the closing date was -328 606,00 euros.

Auditor's Report

Translation

To the Annual General Meeting of Frankis Group Oy

We have audited the accounting records, the financial statements, the report of the Board of Directors, and the administration of Frankis Group Oy (former Senhold 1 Oy) for the financial period 1.1.2012–31.1.2013. The financial statements comprise the consolidated balance sheet, income statement and cash flow statement and notes to the consolidated financial statements, as well as the parent company's balance sheet, income statement and notes to the financial statements.

Responsibility of the Board of Directors and the Managing Director

The Board of Directors and the Managing Director are responsible for the preparation of financial statements and report of the Board of Directors that give a true and fair view in accordance with the laws and regulations governing the preparation of the financial statements and the report of the Board of Directors in Finland. The Board of Directors is responsible for the appropriate arrangement of the control of the company's accounts and finances, and the Managing Director shall see to it that the accounts of the company are in compliance with the law and that its financial affairs have been arranged in a reliable manner.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial statements, on the consolidated financial statements and on the report of the Board of Directors based on our audit. The Auditing Act requires that we comply with the requirements of professional ethics. We conducted our audit in accordance with good auditing practice in Finland. Good auditing practice requires that we plan and perform the audit to obtain reasonable assurance about whether the financial statements and the report of the Board of Directors are free from material misstatement, and whether the members of the Board of Directors of the parent company or the Managing Director are guilty of an act or negligence which may result in liability in damages towards the company or have violated the Limited Liability Companies Act or the articles of association of the company.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements and the report of the Board of Directors. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of financial statements and report of the Board of Directors that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements and the report of the Board of Directors.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements and the report of the Board of Directors give a true and fair view of both the consolidated and the parent company's financial performance and financial position in accordance with the laws and regulations governing the preparation of the financial statements and the report of the Board of Directors in Finland. The information in the report of the Board of Directors is consistent with the information in the financial statements.
